DATE: August 15, 2017

SUBJECT: **Student login update**

ACTION: **Share with staff and families**

Great News! In addition to all students grades 3-12 being provisioned with a device, all teachers including those who attended New Teacher Orientation have been provisioned with a laptop. Teachers are ready! Over 3,000 teachers participated in training this summer on digital literacy and use of digital tools, including Canvas.

The Technology Services team has worked diligently to streamline student access to digital tools.

Student logins have been updated to a more consistent format using the student's state ID and unique password. Students will be able to access more of the digital tools available in the NCEdCloud portal. This change is a big step in making digital learning and access to digital tools, easier for students from any computer with Internet. Please review the table below for updated login information.
